1 To mount the track adaptor into the track system, check that both tabs A & B on the adaptor are in the "open" position and insert into the track.	2 Ensure the track adaptor is inserted with the correct orientation.	3 Rotate tab A clockwise 90° to connect the adaptor to the neutral circuit.
4 Rotate tab B to the desired position circuit.	4a Unconnected: The luminaire is fixed to the track but not connected to any circuit.	4b Circuit 1: To connect to circuit 1, from the starting position, rotate the tab B clockwise 90°.
4c Circuit 2: To connect to circuit 2, from the starting position, rotate the tab B anti-clockwise 90°.	4d Circuit 3: To connect to circuit 3, from the starting position, pull the tab B down and rotate anti-clockwise 90°.	

Warnings:

1. Make sure that the product is installed properly before connecting to electricity.
2. Do not cover the fitting.
3. Maintenance and installation should only be carried out by a professional electrician.
